A strike in Chicago, forcing one delivery a day of milk, is increasing the death rate among infants.

At Nashville the General Assembly of the Cumberland Presbyterian Church will discuss a proposed union with the Church North.

The value of the exports from New York in 1902 was \$404,381,000, or 55 per cent. of the whole of the exports from Atlantic ports.

The Standard Oil Company is making investigations preliminary to the investment of \$1,000,000 in Adams county, Ind., one-half for leases.

Albert Davidson, a nine-year-old boy, was arrested by revenue officers in Rockcastle county on the charge of selling moonshine whisky.

Miss Clementine Lage of Covington, Ky., tried to commit suicide in Hamilton, O., because Dr. Walter J. Smith of Rely, O., would not marry her.

Bird S. Coler of New York has been sued by stockholders of the Guardian Trust Company, who charge him, as President, with mismanagement of its affairs.

Off Cape Charles the sea for miles is covered with oil, which probably explains the disappearance of the tanker Lukenbach, which had a crew of fifty-two men.

May 20 was the hottest on record in New York City—90 deg. at 3:20 p. m., four degrees hotter than any other May 20. There were five prostrations and two deaths.

The Interstate Commerce Commission has appealed to the Federal Court for an order compelling President Baer to produce certain alleged contracts limiting the production of coal.

The Public Service Corporation, which has taken under its management certain traction and gas and electric plants in Northern New Jersey, guarantees 8 per cent. interest for 89 years.

Secretary of the Interior Hitchcock, after a visit to Indian Territory and Oklahoma, announced himself against the consolidation of the two into one state, but said Oklahoma should be at once admitted to statehood.

Since the first of the year 78,697 persons have left the United Kingdom for foreign countries. Of the total 43,532 were British born, and of these 28,143 went to British possessions, 13,986 to the United States and 1,403 to other foreign countries. Emigration has not been so brisk for many years.

There are now in custody in England and Wales, undergoing terms of imprisonment for crimes, 625 aliens of comparatively recent importation. An investigation into the antecedents of these criminals shows that in a majority of instances they were driven or assisted out of their own countries and entered Great Britain unchallenged.

The annual demand for railway ties is 400 for each mile of track and the average life of a tie is seven years. It is an unusual acre of forest that has 300 trees that will make three ties each, and it takes fifty years to grow a tree that will make three ties. Therefore, twenty-five acres of forest are necessary for every mile of track. Electric railways included, there are in the United States about 250,000 miles of road.

The annual report of the Nitrate Association of Chile, which controls the world's supply of nitrate of soda, shows the production in 1902 to have been 2,982,522,500 pounds from seventy-eight works. The nitrate beds are near the surface and are worked as stone quarries. It is anticipated that the immense amount of nitrate the United States now gets from Chile for use in fertilizers will ultimately be supplied by factories making it by electrical process from the air, as is being done at Niagara Falls.

PILES
R. W. I. KELLEY
W. 10th Street, CINCINNATI, OHIO

Mr. R. T. Wilson, who has been so seriously ill, is decidedly better this morning.

That Indianapolis chambermaid will be above making up beds at all if contributions continue pouring in upon her, it may be remarked.

Dr. J. C. Molloy will return today from Christiansburg and will preach at the Central Presbyterian Church at the usual hours tomorrow.

Ashland, Kansas, the place visited by a cyclone Thursday, in which much property was injured, is the home of Dr. W. F. Taylor, formerly of this city.

Baseball Standing

The following table shows the standing of the various baseball clubs in the National League up to yesterday:

River News

The Bonanza will be up tonight for Pomeroy.

The Henry M. Stanley from Charleston will be down tomorrow.

The Snagboat E. A. Woodruff is at Cincinnati preparing to clean up the Lower Ohio.

There will be a big shipment of coal from Pittsburgh when a rise comes. The annual June rise will be apt to bring it.

Captain J. F. Ellison of the Pittsburgh and Cincinnati Packet Line has been elected Secretary of the Ohio Valley Improvement Association in the place of Colonel E. P. Wilson, resigned.

Captain T. S. Calhoun of the steamer Virginia was a visitor in Pittsburgh Thursday. He is just recovering from a long illness which confined him to his home in Georgetown since January 1.

A new gasoline boat, the Elizabeth May, owned by Albert Martin of Lewis county, has entered the Manchester and Vanceburg trade. She is 14 feet wide, 55 feet long, and has plenty of passenger room. She made her first trip Tuesday.

The John A. Wood is the last of the big towboats on the way up from New Orleans. The Harry Brown and Exporter are towing coal from Cairo to St. Louis; the Sprague, Joe B. Williams and Alice Brown are at Riverview, and the Glenear at the People's Coal Company landing below New Albany.

Pittsburgh river men are beginning to wonder if they will ever be able to make a trip down the river again. The fresh-water sailors had placed all faith in the prophecy of Colonel Poe who, about a week ago, predicted rain from May 18 to May 20. They are now demanding a fulfillment of that same glorious promise, but Poe is at a loss to know how it failed to materialize, as the rain was certainly due at the date set.

The rivermen are expecting a rise soon. The river has been on a stand since Monday at this point, but is falling some below. The big swell in the Upper Mississippi will check the fall in the Lower Ohio, and may cause the Ohio to rise and run upstream some distance from Cairo. This is a uncommon thing. The Mississippi being higher than the Ohio it naturally runs some distance up the lower stream until it falls below and runs out.

Engineer Robert Fitzsimmons, late of the Catherine, boasts of being the oldest Engineer on the Mississippi, Ohio or local rivers. He started in the business in 1846 and has always been Engineer of a boat except during the period when he served in the United States Army during the Mexican War. Fifty-seven years in the service is the record of the Engineer and Mr. Fitzsimmons is still able to be in active service. He is 74 years old.

The Wastes of the Body.
Every seven days the blood, muscles and bones of a man of average size lose two pounds of worn-out tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions the strength lets down, health gives way and disease sets up. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures indigestion, Dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by J. W. Wood & Son.

The funeral of the late John W. Power was largely attended from his home yesterday afternoon. The services were conducted by the Rev. Dr. W. F. Taylor of Nicholasville, former Pastor of the First M. E. Church, South, assisted by the Rev. J. L. Clark of Paris.

DECORATE THE GRAVES.

Effort to Have Coming Decoration Day a Memorable One.

There is a desire on the part of those having the matter in charge to interest our citizens in a general observance of Decoration Day on Saturday, May 30th.

As is perfectly proper in the premises, the veteran soldiers of the Civil War have taken the initiative, and invite the entire citizenship to join with them in making this a memorable occasion.

Who that has a loved one in our beautiful Cemetery will not pay the slight tribute of placing a few flowers on the grave?

Members of the various Fraternal Orders are invited to participate by the decoration of the graves of their departed brethren, and it is hoped that there will be a generous response to the invitation.

A Committee from Joseph Heiser Post, G. A. R., will decorate the graves of the Federal dead; and if there be found the neglected grave of a Confederate, it too will be remembered—not because its occupant was a Confederate, but because he was a brave American soldier.

Colonel D. W. McClung, one of the most scholarly men in the Ohio Valley, will deliver the address at Dieterich's Park at 2:30 o'clock p. m., and it is sincerely hoped that there will be an attendance worthy of the distinguished speaker and commensurate with the occasion.

The Redmen's Band has been engaged for the afternoon and there will be splendid vocal music as well.

Both Cemetery Companies are bending every effort to have their grounds in perfect order for Decoration Day. Every one who will kindly contribute a small sum to aid the Grand Army boys in defraying the expenses for music, speaker etc., in order to make the day everything that it should be, will please send their subscriptions to THE LEDGER office, and they will be promptly acknowledged.

The X-Rays.

Recent experiments by practical tests and examination with the aid of the X-Rays establish it as a fact that Catarrh of the Stomach is not a disease of itself, but that it results from repeated attacks of indigestion. "How Can I Cure My Indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia and prevent or cure Catarrh of the Stomach. Kodol digests what you eat—makes the stomach sweet. Sold by J. W. Wood & Son.

There is talk of a \$7,000,000 Cash Register Trust, with O. H. P. Belmont at the head.

A Woman's Prayer

It is notable that in the despondency caused by womanly diseases, there seems to many a suffering woman no way of escape from pain except at the price of life itself. It would be sad to record such a story of struggle and suffering except for the fact that in such dire distress many a woman has found a way back to health and happiness by the use of Dr. Pierce's Favorite Prescription. The one and only remedy for leucorrhoea, female weakness, profluvium, or falling of the womb, so absolutely specific and sure in curing these common ailments of women, as to warrant its makers in offering to pay, as they hereby do, the sum of \$500 reward for a case of the above maladies which they cannot cure.

"Your medicine almost raised me from the dead," writes Mrs. Edwin H. Gardner, of Egypt, Plymouth Co., Mass., Box 14. "My urine was like brick dust, and I had pain all over me, and such a dragging feeling it seemed I could not do my house work. One day I found a little book. I read it and wrote to Dr. Pierce, and in a few days received an answer. I decided to try his medicine, and to-day I am a well woman. I have no backache, no headache, no pain at all. I used always to have headaches previously to the monthly period and such pain that I would roll on the floor in agony. I took three bottles of Dr. Pierce's Favorite Prescription and three of 'Golden Medical Discovery' and three vials of Dr. Pierce's Pleasant Pellets, and was completely cured."

Accept no substitute for "Favorite Prescription." There is nothing just as good. Dr. Pierce's Common Sense Medical Adviser—sent free on receipt of stamps to cover expense of mailing only. Send 21 one-cent stamps for the book in paper covers; or 31 stamps for the cloth bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.
